HW1\_2

The screenshot shows an IDE window titled "hw1\_2.java — fylsunghwan [SSH: Home]". The Explorer panel on the left shows the project structure for "FYLSUNGHWAN [SSH: HOME]", with the "2020 ITE2037" folder expanded to show the "hw1" subfolder containing "hw1\_1.java" and "hw1\_2.java". The Editor panel displays the code for "hw1\_2.java":

```
1 public class hw1_2 {  
2     Run | Debug  
3     public static void main(String[] args) {  
4         int total_sec = 50391;  
5         int hour = total_sec/3600;  
6         int min = (total_sec%3600)/60;  
7         int sec = (total_sec%60);  
8         System.out.println(hour+" hours, "+min+" minutes, and "+sec+" seconds.");  
9     }  
10  
11 }
```

The Output panel at the bottom shows the result of the debug run: "13 hours, 59 minutes, and 51 seconds." The status bar at the bottom indicates the current file is "fylsunghwan" and the cursor is at "Ln 12, Col 1".
